PROFESSIONAL SUMMARY

With over 1 year of freelancing experience, I have successfully developed responsive websites and HTML email templates, all ensuring a responsive design. As the IT Captain, I have taken charge of planning training in the technologies used in the field and played a crucial role in the development of our CRM app through rigorous testing.

WORK EXPERIENCE

Web and Email Development Freelance work

Web Developer

- Developed responsive design websites, ensuring optimal user experience across various devices.
- Developed HTML email templates that were visually appealing and optimized for different email clients.
- Utilized industry best practices and coding standards to ensure high-quality and maintainable code.
- Conducted thorough testing and debugging to ensure the functionality and performance of web and email projects.
- Provided ongoing support and maintenance for completed projects, ensuring their continued success.

The Home Depot Equipment Services

Sr. Field Service Professional

Austin

Full-time

- Assumed the role of IT Captain for our region, overseeing and coordinating IT-related activities to ensure smooth functioning of systems and infrastructure.
- Demonstrated strong leadership skills by effectively managing and prioritizing tasks, ensuring timely completion of projects and deliverables.
- Maintained clear and concise documentation of processes and procedures, facilitating knowledge sharing and efficient troubleshooting.
- Led several training sessions for my region, increasing associate leadership skills. Enhanced team productivity and collaboration.
- Achieved a 27% increase in Concur compliance and improved team collaboration through delivering engaging content in region meetings.

Online Bootcamp in Email & Web Development

Coding Phase

Remote • 07/2023 - 06/2024

- **HTML and CSS:** Proficiency in coding emails using HTML and CSS to ensure they render correctly across different email clients and devices.
- **Responsive Design:** Expertise in creating responsive email templates that adapt to various screen sizes, ensuring a consistent user experience on desktops, tablets, and mobile devices.
- **Email Client Compatibility:** Knowledge of the quirks and limitations of different email clients (e.g., Outlook, Gmail, Apple Mail) to ensure emails display correctly in all environments.
- **Deliverability and Compliance:** Understanding of email deliverability best practices and compliance with regulations such as GDPR, CAN-SPAM, and CASL.
- **Email Testing Tools:** Familiarity with tools like Litmus or Email on Acid to test and preview emails across multiple clients and devices.
- **Accessibility:** Ability to create accessible emails that comply with accessibility standards, ensuring content is readable and navigable for all users, including those with disabilities.
- **Email Automation and Workflow Creation:** Experience setting up automated email sequences and workflows using tools like Mailchimp, HubSpot, or Marketo.
- **Dynamic and Personalized Content:** Experience incorporating dynamic content and personalization techniques, such as merge tags and dynamic fields, to tailor emails to individual recipients.

Online Bootcamp in React Development

Zero to Mastery

05/2023 - 08/2023

- **Javascript (ES6+):** Proficiency in JavaScript, including ES6+ features such as arrow functions, destructuring, spread/rest operators, and modules.
- **React Library:** In-depth knowledge of React, including hooks, state management, context API, lifecycle methods, and component-based architecture.
- **HTML/CSS:** Strong understanding of HTML and CSS, including modern layout techniques like Flexbox and Grid, to create responsive and accessible user interfaces.
- **Redux or Context API:** Experience with state management libraries like Redux or using React's Context API to manage application state efficiently.
- **Component Libraries:** Familiarity with popular UI component libraries such as Material-UI, Ant Design, or Bootstrap, to accelerate development and ensure a consistent look and feel.
- **Routing with React Router:** Proficiency in using React Router to handle navigation and routing within single-page applications (SPAs).
- **Testing and Debugging:** Skills in testing frameworks and tools such as Jest, React Testing Library, and debugging tools to ensure code quality and reliability.
- **Version Control with Git:** Experience using Git for version control, including branching, merging, and pull requests, to collaborate effectively with other developers.
